Introduction

Dear Reader,

This guide was produced by the Foxborough Council on Aging and Human Services. It includes the latest program information available at the time it was prepared. Much information is specific to elders, but the guide includes information that applies to all adults and families; and especially those with disabilities and/or limited income.

The guide begins with a section on Foxborough specific programs.

The second section provides information and listings having to do with services and programs that are available to Foxborough residents but that are not specific to Foxborough.

A third section lists internet resources which can be accessed for more information on many of the topics listed in the resources section.

Finally, the guide includes a quick listing of crisis hotlines (on the inside of the front cover).

Resources available to residents include financial assistance, help choosing health insurance, help with transportation, food shopping, meal preparation, house cleaning, medical care, and on and on. Each program is likely to have its own intake procedures and qualifications.

Programs and providers change constantly. Therefore, this resource guide will only provide a snapshot of current services and providers. Please call providers to confirm the information about services that interest you.

We want to acknowledge the many non-profit and government agencies who have produced guides or listings from which we have drawn inspiration, ideas and data.

We hope the listings in this guide may point consumers and caregivers to resources and programs that can help them.

For more information or help, call the Council on Aging and Human Services at 508-543-1234.

Sincerely,

Vicki Lowe Executive Director

HOME HEALTH AGENCIES—OVERVIEW

Certified Home Health Agencies are licensed and approved to provide home health services under Medicare and Medicaid. Certified agencies provide services such as registered nurses, occupational therapists, physical therapists, social workers and home health aides. A physician’s order is generally needed to receive services under Medicare or Medicaid. Check with your insurance carrier for limits placed on Home Health Care payments by your insurer.

Non-certified Home Health Agencies cannot bill Medicare or Medicaid. Both certified and non-certified agencies offer skilled services on a private pay basis as well as private pay non-medical services such as homemaking and companionship. There is no need for a physician’s order for private pay services.
(Note: Placement Agencies’ workers are considered contractors and not agency employees. Many do not cover workmen’s compensation or payroll taxes; these become the responsibility of the consumer.)

HOUSING RESOURCES

Overview: Public Housing Available in Massachusetts
In Massachusetts there are 253 Housing Authorities, representing each city/town in the state. Most public housing is available to low income families, elders and disabled adults. There are a small amount of units available for single non-disabled adults.

State aided public housing: These are public housing units for low income elders (60 and over), disabled adults, and low income families. Applications are made through the local Housing Authority. A Universal Application can be completed, copied and sent to each housing Authority for each town.

There are also privately run Federal Public Housing Units that are run by individual management companies. These units are available to elders (62 and older), and disabled individuals. To apply, contact each management company for an application.

Rental Assistance: These are rental subsidies, (called vouchers) for private apartments not in public housing developments. There are three main types of housing subsidies (vouchers). One is federal (HCVP), and two are state funded. (MRVP & AHVP)

Federal: Section 8 Housing Choice Voucher Program (HCVP). Apply at South Middlesex Opportunity Council (SMOC) to be placed on the statewide waiting list. This list is very long, and never closes.

In addition, there is a Centralized Waiting List comprised of 84 participating Housing Authorities. One application needs to be completed and sent to any one of those housing authorities on the list, and you are automatically placed on all 84 lists. For questions please call the Centralized Waiting List Informational Line at 877-868-0040.

There are a few individual housing authorities that also have Section 8 vouchers, but do not participate in the centralized list. You need to call each remaining city/town to see if they have Section 8 vouchers. Not all do. Also, many of these lists are closed.
State: Mass Rental Voucher Program: (MRVP) These can be either mobile or unit based. Applications are made through SMOC. These lists can also be closed. (Mass) Alternative Housing Voucher Program: (AHVP) This program is exclusively for under 60 disabled adults. Need to apply through local housing authority. Not many have these vouchers. You need to call and ask each authority.

**MEDICAID (MASSHEALTH)**

*Medicaid* (A federal program called MassHealth in Massachusetts) is a comprehensive health insurance program for low income children, families, elders, and those with disabilities.

People who live in Long-Term Care Facilities receive MassHealth when they can no longer pay privately for their care. Others receive MassHealth coverage while remaining in the community, living in their own home or with family.

MassHealth covers almost all medical expenses associated with in-patient and out-patient medical care not covered by other insurance. Eligibility varies by age, living situation and other factors.

For questions about general eligibility, MassHealth benefits, enrollment into a health plan, dental benefits, etc., call **MassHealth Customer Service Center**, 800-841-2900 (TTY: 800-497-4648).

For questions about eligibility or the status of your application, call **MassHealth Enrollment Center**: 888-665-9993 (TTY: 888-665-9997). Elders and caregivers may speak with a SHINE counselor at the Senior Center or at HESSCO. (see SHINE on page 25).

**MEDICARE**

*Medicare* is health insurance for eligible U.S. residents 65 years of age and older, and some younger individuals with disabilities. Medicare is divided into four main parts.

**Part A** is usually free. It covers many (but not all) costs associated with hospitalization.

**Part B** has a monthly premium and covers many (but not all) costs associated with outpatient medical care. Together, Part A and Part B are referred to as **Traditional Medicare**.

Medicare recipients with only traditional Medicare must pay various deductibles and co-payments. Many recipients choose additional insurance coverage to protect themselves from those costs. For those with traditional Medicare coverage, **Medicare Supplement (Medigap)** plans provide protection from high out-of-pocket medical expenses – but charge premiums. They are accepted by all physicians and hospitals who accept Medicare. Medigap policies do not cover prescriptions, so you’ll need a separate (Part D) drug plan.

**Part C (Medicare Advantage)** combines Part A, Part B, and, sometimes, Part D (prescription drug) coverage. Medicare Advantage plans are offered by private
companies approved by Medicare. Plans must cover medically-necessary services; but plans can charge different copayments, coinsurance, or deductibles for these services. They also may cover a few services not covered by Medicare. Medicare Advantage Plans, such as HMOs, PPOs, and Private Fee for Service Plans, often have monthly premiums. (You also pay the Part B premium.) Part C plans may restrict where you get care, and which physicians you see.

Part D, a.k.a. the Medicare Prescription Drug Program, is offered through private insurance companies. Part D plans help pay the cost of prescription medications. Part D plans may charge monthly premiums, co-pays, and deductibles.

SHINE counselors can help people choose the right coverage. (See SHINE on page 25.)

PERSONAL EMERGENCY RESPONSE SYSTEMS or PERS. A PERS has three components: a small radio transmitter, a console connected to your telephone, and an emergency response center that monitors calls. When you need help, you press the transmitter’s help button, which sends a signal to the console. The console automatically dials one or more emergency telephone numbers. Most PERS are programmed to telephone an emergency response center. The center will try to find out the nature of your emergency. They also may review your medical history and check who should be notified. Some providers offer enhanced services such as medication reminders or dispensing. Local companies and agencies such as VNAs, Home Security Companies and Ambulance Services also offer PERS. Supplemental Security Income (SSI) in Massachusetts

Overview: SSI is a federal program that provides monthly cash payments to people in need. Massachusetts supplements the federal payment. SSI is for people age 65 or older; and for blind or disabled people of any age, including children. To qualify, you must have little or no income, and your resources must be less than $2,000 if you are single or less than $3,000 if you are married. The value of your home does not count as long as you live in it. Usually, the value of your car does not count. The value of certain other resources, such as a burial plot, may not count either.

In Massachusetts, SSI recipients get two separate amounts; one from Social Security for the federal SSI amount and another from the state for the Massachusetts state supplement amount. To receive SSI, you must also apply for any other cash benefits you may be able to get.

If you are not a U.S. citizen, but you are lawfully residing in the United States, you still may be able to receive SSI.

disconnected for awhile, even if you are unable to pay your bill.

**For gas, electric, or water utility** shutoff protection:

**At any time of year,** households are protected in which everyone is age **65 or older,** unless the utility gets permission from the Department of Public Utilities (DPU). The DPU rarely gives utilities permission to shut off service to elderly households.

During the winter months (November 15 through March 15), **any** household with a financial hardship is protected if the household would be without heat if utility service were shut off. You qualify for financial hardship if you are getting **Fuel Assistance, MassHealth, SSI, or TAFDC.** Note: Other benefits programs may also qualify. Check with your utility company. You also qualify for financial hardship if your household meets the income limits below.
