Mr. Galley

Thank you for your email. There will be public hearings on the proposed project some time next year and I know the Zoning Board will be receptive to comments like this. They are the board that will vote on whether to allow the Walnut Street housing project. I will keep your comment for the future file but please be assured the project is not yet officially proposed, and no decisions have been made to allow any projects on Walnut Street at this point.

I am cc'ing the administrator for the Zoning Board of Appeals on this email.

Take care,

~Paige Duncan

Hi Page,

I live at 56 North High St that abuts the new project site you are working on.

I feel the highway and off ramp noise will get louder when you remove all the sound barriers of the trees and brush. I would like to inquire about the possibility of having the sound barrier walls that I've seen elsewhere put in to relieve this problem. If you go to the end of North High St where the houses are closer to the highway it is incredibly loud.

Thank You
Edward Galley
