Re: **Schneider Electric Donation to the Town of Foxboro**

Dear Bill,

Schneider Electric's ongoing relationship with the Town of Foxboro dates back more than a century through the Company's acquisition of Invensys in 2014 and previously the Foxboro Company. We and our employees are proud of the Company's long association with the Town and our active leadership role in helping to advance the needs of important business, civic, and educational initiatives such as the Invensys Foxboro YMCA, the Schneider Electric Learning Center at the Lane Homestead, and of our ongoing support of a host of community and school endeavors.

Our aim is to support the communities where we have a presence and that our employees call home. To that end, I am pleased to be able to inform you, the Board of Selectmen, and the community of two substantial commitments totaling \$250,000 that Schneider Electric is making to the Town of Foxboro:

- A \$150,000 commitment to underwrite the modernization of the electrical distribution system, control systems, lighting and other energy infrastructure supporting the Town Common. The modernization project will enhance the efficiency of the electrical infrastructure in a safe and sustainable manner, ensuring the Town Common remains a central point of community action and activities now and for future generations; and
- A \$100,000 commitment to create scholarship fund for Foxboro High School graduates pursuing careers in STEM (Science, Technology, Engineering and Mathematics) professions. Graduating seniors from Foxboro attending university or college to study in a STEM-related field will be eligible to apply.

We believe strongly in investing in Foxboro and are proud to fund these two very important initiatives which will benefit citizens for years to come.

Sincerely yours,

Steven P. Sacco
Vice President, Safety, Environment & Real Estate
