

USE OF FOXBOROUGH CONSERVATION AREAS DURING COVID-19

Town conservation areas and trails will remain open to the public during this time for a much needed escape from the stresses of COVID-19.

THERE IS A THREAD OF SILVER LINING DURING THIS DIFFICULT TIME! While we are all physically isolating to prevent the spread of the virus, we will have more time for each other and for nature (which is always open)! And getting outside can help boost your and your family's resilience and mental well-being, too.

FOR THE HEALTH AND SAFETY OF OTHERS DURING THIS TIME, PLEASE:

- ***Practice social/physical distancing*** by keeping at least 6 feet apart, even outdoors.
- ***Stay home if you are sick, having any symptoms, or if you might have been exposed.***
- ***DO NOT congregate in groups*** of any size during your visit.
- ***Dogs must be controlled at all times (on a leash)*** by an adult.
- ***No motorized vehicles (except those required by public safety officials in an emergency).***
- ***Take out what you take in***, including any trash, dog waste, or other items on your person. These things are not only eyesores, but they can be sources of disease transmission.
- ***Check often for deer ticks*** during your visit, then again when you get home; yes, they're out!
- ***If a lot of vehicles are parked nearby***, please choose another property or time to visit.

Foxborough has 13 core conservation areas, so there is plenty of open space to go around, while still successfully social distancing (for trail details, see QR code and/or the link, below).

***Please remember to carry out what you carry in
IT'S YOUR LAND, ENJOY IT... BUT PLEASE STAY SAFE!***
