

Liquids? Creams? HOW DO YOU DISPOSE OF THESE?

MIX

In a sealable plastic bag, MIX together medication with an unpalatable/unappealing substance (so as to distract from pets, children and others)

Examples: dirt, kitty litter, used coffee grounds, sawdust, etc.

THROW

Seal the plastic bag and THROW away in your household trash

CONCEAL OR REMOVE

Before disposing the bottle/container used to house your medication, CONCEAL or REMOVE all personal information;

- * **Scratch off and remove the label; or**
- * **Scribble out information with pen, followed by permanent marker, then conceal with duct tape**
- * **Discard in household trash or recycle as applicable**
